

Florida College Pipeline Data Profile

How Prepared are Florida Students for Postsecondary Success?

HIGH SCHOOL READINESS

National Assessment of Educational Progress performance and algebra-taking in the early years suggest how well prepared students will be for a rigorous high school curriculum.

Table 1. Percent of 8th Graders Scoring at or Above “Proficient” on NAEP

	Math 2007	Reading 2007	Science 2005
Florida	27	28	21
Nation	31	29	27

THE PATH TO COLLEGE

Table 2.1 Students’ Performance on College Entrance Exams (2007)

	Average SAT			Average ACT			
	% Takers	Math	Verb	% Takers	Math	Eng	Sci
Florida	65	497	496	54	20	19	20
Nation	48	515	502	42	21	21	21

Florida’s Progress in P-20 Alignment Policies

Alignment policy	Policy in Place
Align high school standards with college/career expectations	Plan for 2008
Align high school graduation requirements with college/career expectations	NR
Administer college readiness test to all students	Plan—TBD
Develop P-20 longitudinal data system	2006
Use at least one measure to hold schools accountable for graduating students college/career ready	2006

Table 2.2 ACT/AP Takers' HS Course-Taking Patterns (2007) (i)

	% Taking min core courses			% Taking beyond min core courses			% Earning a 3 or higher on AP exam
	Math	Sci	Eng	Math	Sci	Eng	
Florida	8	21	61	60	47	10	15
Nation	17	31	59	54	29	19	8

COLLEGE GOING, PERSISTENCE AND GRADUATION

THE EDUCATION PIPELINE AND THE FUTURE OF FLORIDA

- Assuming existing patterns of high school completion and migration continue, the number of high school graduates in Florida will increase by about 23% by 2015 (ii).
- Hispanic and Asian/Pacific Islander graduates from public schools in Florida are projected to increase by 79 and 76%, respectively. American Indian/Alaska Natives and Black non-Hispanics will see more modest increases of 16 and 11%, respectively from their 2004-05 level. White non-Hispanics see a slight growth of 1 percent (ii).
- By 2014, 78% of all job openings in the U.S. will require some college or training beyond high school (iii).
