

Illinois College Pipeline Data Profile

How Prepared are Illinois Students for Postsecondary Success?

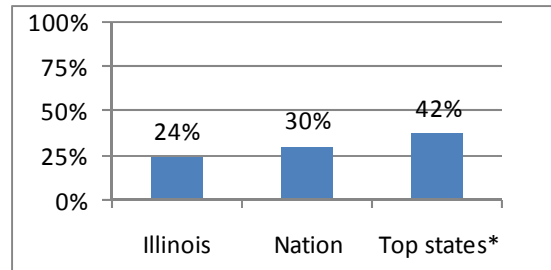

HIGH SCHOOL READINESS

National Assessment of Educational Progress performance and algebra-taking in the early years suggest how well prepared students will be for a rigorous high school curriculum.

Table 1. Percent of 8th Graders Scoring at or Above “Proficient” on NAEP

	Math 2007	Reading 2007	Science 2005
Illinois	31	30	27
Nation	31	29	27

Figure 1. 8th Graders Taking Algebra 1 (2007)

THE PATH TO COLLEGE

Table 2.1 Students’ Performance on College Entrance Exams (2007)

	Average SAT			Average ACT			
	% Takers	Math	Verb	% Takers	Math	Eng	Sci
Illinois	8	594	611	100	20	20	20
Nation	48	515	502	42	21	21	21

Illinois’s Progress in P-20 Alignment Policies

Alignment policy	Policy in Place
Align high school standards with college/career expectations	Plan - TBD
Align high school graduation requirements with college/career expectations	NR
Administer college readiness test to all students	2004
Develop P-20 longitudinal data system	Plan - TBD
Use at least one measure to hold schools accountable for graduating students college/career ready	Plan - TBD

Table 2.2 ACT/AP Takers' HS Course-Taking Patterns (2007) (i)

	% Taking min core courses			% Taking beyond min core courses			% Earning a 3 or higher on AP exam
	Math	Sci	Eng	Math	Sci	Eng	
Illinois	22	29	63	48	20	13	10
Nation	17	31	59	54	29	19	8

COLLEGE GOING, PERSISTENCE AND GRADUATION

THE EDUCATION PIPELINE AND THE FUTURE OF ILLINOIS

- Assuming existing patterns of high school completion and migration continue, the number of high school graduates in Illinois will be about the same in 2015 as in 2004-05 (ii).
- Hispanic graduates from public schools in Illinois are projected to increase by 46% between 2004-05 and 2015. Asian/Pacific Islander graduates are also expected to grow by 29%. Meanwhile, White non-Hispanic and Black non-Hispanic graduates are expected to see 14 and 8% declines, respectively, during the same time span. The number of American Indian/Alaska Native graduates will be basically unchanged from its 2004-05 level (ii).
- By 2014, 81% of jobs in Illinois will require some education or training beyond high school (iii).
