

Maine College Pipeline Data Profile

How Prepared are Maine Students for Postsecondary Success?

HIGH SCHOOL READINESS

National Assessment of Educational Progress performance and algebra-taking in the early years suggest how well prepared students will be for a rigorous high school curriculum.

Table 1. Percent of 8th Graders Scoring at or Above “Proficient” on NAEP

	Math 2007	Reading 2007	Science 2005
Maine	34	37	34
Nation	31	29	27

THE PATH TO COLLEGE

Table 2.1 Students’ Performance on College Entrance Exams (2007)

	Average SAT			Average ACT			
	% Takers	Math	Verb	% Takers	Math	Eng	Sci
Maine	100	466	465	11	22	22	22
Nation	48	515	502	42	21	21	21

Maine’s Progress in P-20 Alignment Policies

Alignment policy	Policy in Place
Align high school standards with college/career expectations	2007
Align high school graduation requirements with college/career expectations	NR
Administer college readiness test to all students	2006
Develop P-20 longitudinal data system	Plan - TBD
Use at least one measure to hold schools accountable for graduating students college/career ready	Plan for 2008

Table 2.2 ACT/AP Takers' HS Course-Taking Patterns (2007) (i)

	% Taking min core courses			% Taking beyond min core courses			% Earning a 3 or higher on AP exam
	Math	Sci	Eng	Math	Sci	Eng	
Maine	22	36	70	56	41	11	3
Nation	17	31	59	54	29	19	8

COLLEGE GOING, PERSISTENCE AND GRADUATION

THE EDUCATION PIPELINE AND THE FUTURE OF MAINE

- Assuming existing patterns of high school completion and migration continue, the number of high school graduates in Maine will decrease by about 1% by 2015 (ii).
- Hispanic graduates from public schools in Maine are projected to increase by 174% between 2004-05 and 2015. Black non-Hispanic and Asian/Pacific Islander graduates are also expected to see growth rates of 164 and 37%, respectively. Meanwhile, White non-Hispanics are expected to see a 17% decline during the same time span (ii).
- By 2014, 77% of jobs in Maine will require some education or training beyond high school (iii).
