

Mississippi College Pipeline Data Profile

How Prepared are Mississippi Students for Postsecondary Success?

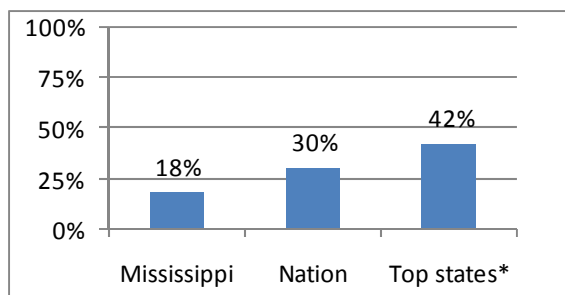

HIGH SCHOOL READINESS

National Assessment of Educational Progress performance and algebra-taking in the early years suggest how well prepared students will be for a rigorous high school curriculum.

Table 1. Percent of 8th Graders Scoring at or Above “Proficient” on NAEP

	Math 2007	Reading 2007	Science 2005
Mississippi	14	17	14
Nation	31	29	27

Figure 1. 8th Graders Taking Algebra 1 (2007)

THE PATH TO COLLEGE

Table 2.1 Students’ Performance on College Entrance Exams (2007)

	Average SAT			Average ACT			
	% Takers	Math	Verb	% Takers	Math	Eng	Sci
Mississippi	4	568	549	96	18	19	19
Nation	48	515	502	42	21	21	21

Mississippi’s Progress in P-20 Alignment Policies

Alignment policy	Policy in Place
Align high school standards with college/career expectations	2007-Math
Align high school graduation requirements with college/career expectations	2006
Administer college readiness test to all students	Plan - TBD
Develop P-20 longitudinal data system	Plan - TBD
Use at least one measure to hold schools accountable for graduating students college/career ready	NR

Table 2.2 ACT/AP Takers’ HS Course-Taking Patterns (2007) (i)

	% Taking min core courses			% Taking beyond min core courses			% Earning a 3 or higher on AP exam
	Math	Sci	Eng	Math	Sci	Eng	
Mississippi	12	27	49	59	40	23	13
Nation	17	31	59	54	29	19	8

COLLEGE GOING, PERSISTENCE AND GRADUATION

THE EDUCATION PIPELINE AND THE FUTURE OF MISSISSIPPI

- Assuming existing patterns of high school completion and migration continue, the number of high school graduates in Mississippi in 2015 will fall back below levels a decade earlier (ii).
- Hispanic graduates from public schools in Mississippi are projected to increase by 226% between 2004-05 and 2015. Black non-Hispanic and Asian/Pacific Islander graduates are expected to see growth rates of 4 and 22%, respectively. Meanwhile, White non-Hispanics are expected to see a 9% decline during the same time span (ii).
- By 2014, 77% of jobs in Mississippi will require some education or training beyond high school (iii).
