

Oregon College Pipeline Data Profile

How Prepared are Oregon Students for Postsecondary Success?

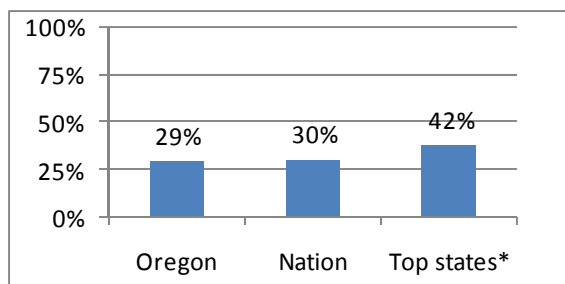

HIGH SCHOOL READINESS

National Assessment of Educational Progress performance and algebra-taking in the early years suggest how well prepared students will be for a rigorous high school curriculum.

Table 1. Percent of 8th Graders Scoring at or Above “Proficient” on NAEP

	Math 2007	Reading 2007	Science 2005
Oregon	35	34	32
Nation	31	29	27

Nation	48	515	502	42	21	21	21

Oregon’s Progress in P-20 Alignment Policies

Alignment policy	Policy in Place
Align high school standards with college/career expectations	Plan for 2008 -Math, Plan for 2010-ELA
Align high school graduation requirements with college/career expectations	Plan - TBD
Administer college readiness test to all students	Plan - TBD
Develop P-20 longitudinal data system	Plan for 2009 -2011
Use at least one measure to hold schools accountable for graduating students college/career ready	Plan for 2009

Table 2.2 ACT/AP Takers' HS Course-Taking Patterns (2007) (i)

	% Taking min core courses			% Taking beyond min core courses			% Earning a 3 or higher on AP exam
	Math	Sci	Eng	Math	Sci	Eng	
Oregon	21	30	67	56	23	11	9
Nation	17	31	59	54	29	19	8

COLLEGE GOING, PERSISTENCE AND GRADUATION

THE EDUCATION PIPELINE AND THE FUTURE OF OREGON

- Assuming existing patterns of high school completion and migration continue, the number of high school graduates in Oregon will decrease by about 5% by 2015 (ii).
- Hispanic and Asian/Pacific Islander graduates from public schools in Oregon are projected to increase by 137 and 60%, respectively, from their 2004-05 levels. Black non-Hispanics and American Indians/Alaska Natives are also expected to grow by 13 and 28%, respectively. Meanwhile, White non-Hispanic graduates are expected to decline by 20% during the same time span (ii).
- By 2014, 80% of jobs in Oregon will require some college or training beyond high school (iii).
